

Decision log

Tom Rochette <tom.rochette@coreteks.org>

June 21, 2025 — [ebe20965](#)

- Do you understand what is at stake?
- Do you know what already exists?
- Can you take an informed decision?
- What did you consider during your decision?
- What are your unknowns (things you'd need to know before you can make a decision)?
- Do you have experience with the problem which needs a decision?
- Indicate who has the most expertise to make the decision.
- You should be allowed to cast a vote if the decision will impact you. If it doesn't (i.e., you're not a stakeholder), your vote will not be counted towards any option.
